Handa Uncle

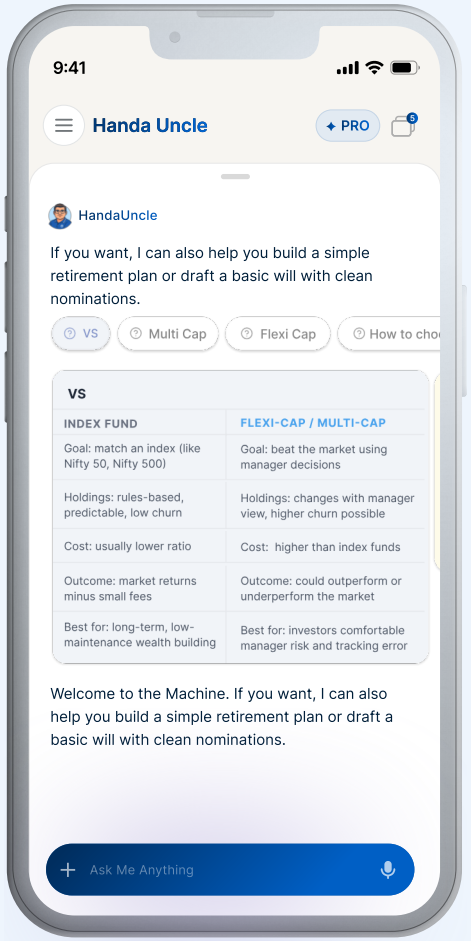

BRAND DIRECTION · VERSION 1.0

Make sense of your money.

A visual system for Handa Uncle, Ravi Handa and the allied Desi FIRE Podcast.

Calm product design. Human explanations. Clear numbers.
Built from the live website, app listing and social pages.

Existing assets and measured website styles are labelled observed.
New rules and templates are labelled proposed.

OBSERVED EVIDENCE / 02

What the brand already says.

The product promises a clearer financial picture. Ravi supplies the human trust. Desi FIRE supplies the conversations and the retirement context.

OBSERVED · WEBSITE + APP

Handa Uncle

Personal CFO positioning, an angular white emblem, blue gradients, pale blue backgrounds and real interface imagery.

OBSERVED · INSTAGRAM

Ravi and the community

Founder appearances, educational reels, FIRE events and the recurring Finance from zero series. The sampled reel pairs a presenter with a simple labelled chart.

Making sense of your money.

Current @handauncle bio language.

OBSERVED · YOUTUBE

Desi FIRE Podcast

Red avatar, yellow FIRE badge and white display lettering. Recent thumbnails also use the blue Handa Uncle emblem, large topic text and Ravi or guest faces.

Sources: Website · Google Play · Instagram · YouTube

One family. Clear roles.

Keep the existing Handa Uncle identity. Give the podcast an endorsed relationship without replacing its recognisable red-and-yellow artwork.

PROPOSED · HIERARCHY

Handa Uncle

Product and education

Lead with Handa Uncle on the website, app, explainers, calculators and product campaigns.

PROPOSED · FOUNDER CREDIT

Ravi Handa

Founder, Handa Uncle
Host, Desi FIRE Podcast

Use his name and a real photograph for interviews, events and first-person stories. Keep brand marks secondary to the speaker.

PROPOSED · ENDORSEMENT

Desi FIRE Podcast

With Ravi Handa

Handa Uncle

Keep the original podcast artwork for channel avatars and covers. Use this editorial relationship on new episode layouts.

OBSERVED · SUPPLIED WEBSITE ASSET

Handa Uncle

Proposed minimum width 140 px for the full lockup. Clear space on every side equals half the emblem height. Use the native asset proportions.

OBSERVED · REVERSE ASSET

Handa Uncle

Use the official white asset on blue. Do not redraw the emblem, stretch the lockup, add glow or turn the podcast logo blue.

Logo files were exported from the live website. Spacing, minimum sizes and endorsement rules are recommendations.

Blue carries the product.

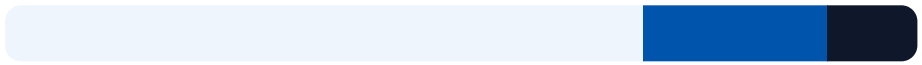

Use the website's measured colours as the foundation. Keep finance screens quiet and reserve stronger contrast for actions and campaign headlines.

CFO blue	Deep blue	Bright blue	Ice	Warm paper	Ink
`#0054AC`	`#002E5F`	`#005FC5`	`#EEF5FD`	`#F7F5F0`	`#0F172A`
Observed · body / cards	Observed · gradient start	Observed · gradient end	Observed · page background	Observed · lower sections	Observed · base text

PROPOSED · USAGE RATIO

70% light · 20% blue · 10% detail

Light surfaces provide reading room. Blue anchors headings, buttons and brand marks. Neutral text and data colours provide the final layer.

PROPOSED · SUPPORTING COLOURS

Success #177454 for positive states. **Risk #B42318** for errors or losses. **Muted #475569** for secondary text. Podcast yellow **#FFE13A** and red **#EC172B** are recommended approximations of observed artwork, not sampled master values.

Accessibility check: white on #0054AC is 7.3:1; #0054AC on #EEF5FD is 6.7:1. #0F172A on #F7F5F0 is 16.4:1. Yellow needs dark text. Label changes and errors in words as well as colour.

Measured via computed styles on handauncle.com. Ratios rounded; proposed text pairs exceed 4.5:1.

Inter. Plain, legible, confident.

The live site declares Inter. Keep it as the shared family and use weight, spacing and scale to organise information.

Your Personal CFO for Every Financial Decision.

Observed headline language. Proposed specimen layout.

Everything you own. One place.

See your assets, loans and family holdings together. Start with one account and build the full picture.

Proposed supporting copy · 16 px / 24 px

ROLE	DESKTOP / MOBILE	WEIGHT
Hero	60 / 36 px	500
Section	40 / 28 px	600
Card title	24 / 20 px	600
Body	16 / 16 px	400
Label	12 / 12 px	600
Financial value	32 / 28 px	600

Proposed responsive scale. Observed website examples include a 60 px / 500 hero, 30 px / 600 feature titles, 24 px / 500 card titles and 16 px body copy at the inspected viewport.

Numbers should be easy to compare.

₹12,50,000

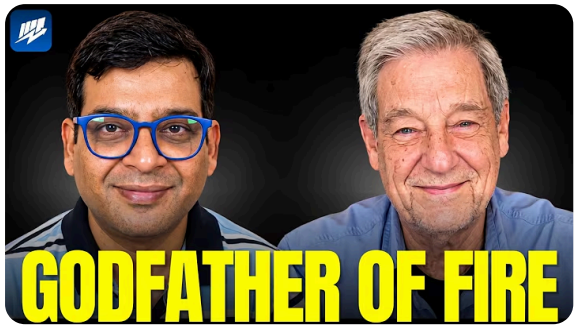

Use Indian grouping and tabular numerals. Write lakh and crore for editorial context. Always identify a period, unit and whether a number is estimated.

Body line-height 1.5. Limit text columns to 60–70 characters. Use sentence case; reserve all caps for short thumbnail hooks and section labels.

RECOMMENDED SYSTEM / 06

The human face of the numbers.

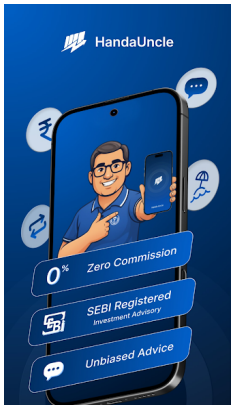

Use real people to explain money. Use interface imagery to explain the product. Let the existing illustrated uncle welcome users into the system.

OBSERVED · EDITORIAL

Ravi and guests

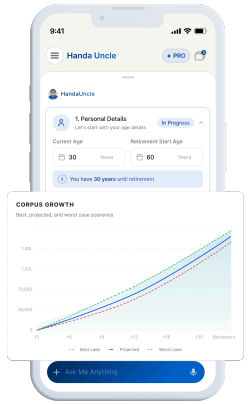

Use approved photographs or actual episode stills. Keep expressions natural, glasses and skin tone accurate, and backgrounds simple.

OBSERVED · MASCOT

The illustrated uncle

Reuse approved artwork for onboarding and app marketing. Keep the blue clothing, glasses and warm expression. Do not generate a substitute founder likeness.

OBSERVED · INTERFACE

The product itself

Use current screenshots with synthetic or approved demo data. Show one feature at a time and preserve readable labels.

Proposed graphic language

Fine blue grids, restrained line icons, rounded cards and labelled diagrams. Use gradients on hero backgrounds and campaign panels; use solid text on busy backgrounds.

Proposed chart rules

Direct labels, visible units, dates and source notes. Blue for the primary series; a second colour plus dashed or solid lines for comparison. Avoid 3D pies, unlabeled arrows and decorative rising graphs.

A calm product surface.

Translate the current blue-and-light direction into consistent controls. These are proposed UI examples with fictional data, not screens captured from the app.

Handa Uncle

Family net worth · illustrative

₹42,50,000

As of 8 Oct 2026 · demo data

Chart is schematic. A production chart needs exact labels and accessible values.

Action hierarchy

Connect an account

Add manually

One primary action per task. Prefer specific verbs over "Continue" when the next step is known.

Reusable dimensions

Spacing 4, 8, 12, 16, 24, 32, 48 px.
Card radius 16 px. Input radius 10 px.
Buttons and touch targets ≥44 px.
Desktop grid 12 columns; mobile 4.
Focus ring 2 px blue, offset 2 px.

Last updated 7 Oct. Try again or reconnect.

Handa Uncle

Can I plan for retirement?

Let's start with your monthly spending, savings and target age.

Projection
Based on your assumptions

Review your plan

Open FIRE planner

Concept only. Feature names are grounded in the public site.

Teach one thing per frame.

Give existing Instagram series a repeatable layout. The examples below are proposed templates; they are not published brand posts.

Handa Uncle

FINANCE FROM ZERO · 07

Revenue isn’t profit.

Revenue − costs
= profit

Learn the difference →

Carousel cover · 1080 × 1350

Handa Uncle

ASK HANDA UNCLE

What does your family own?

Accounts. Investments.
Loans. One picture.

DESI FIRE PODCAST

What does enough look like?

Approved episode still

With Ravi Handa

Watch the conversation →

Podcast clip cover · 1080 × 1350

Carousel

64 px outer margin; headline 64–88 px; body 32–40 px. Slides: question, explanation, example, next step.

Reels / stories

1080 × 1920. Keep key content 90 px from sides, 250 px from top and 340 px from bottom. Check the current app overlay before export.

Presenter clips

Keep the presenter visible. Use two-line captions, readable contrast and one visual example. Avoid animated logos or neon effects competing with the lesson.

RECOMMENDED SYSTEM / 09

Desi FIRE keeps its voice.

Keep the established podcast cover. Standardise new episode thumbnails around one question, real faces and a consistent Handa Uncle endorsement.

Observed · investment conversation

Observed · large topic hook + Ravi

Observed · guest + Ravi split

DESI FIRE PODCAST

HOW MUCH
IS ENOUGH?

With Ravi Handa

Place approved Ravi
or guest portrait here

Proposed 1280 × 720 template. Placeholder portrait area is intentional; this is a layout specification.

Observed references: Investment conversation · Senior living · JL Collins

Thumbnail rules

- One hook, 3–6 words. One face or a clear two-person split.
- Headline 72–100 px at 1280 × 720. Keep a 48 px outer margin and the bottom-right duration area clear.
- Blue Handa Uncle mark in a fixed corner. Use yellow only to highlight one phrase.
- Retain the existing red/yellow podcast cover on channel and audio platforms. Do not reconstruct the original logo from text.

Proposed display face: Inter ExtraBold. The original podcast logo's exact font was not verified.

RECOMMENDED SYSTEM / 10

Speak like a useful uncle.

The voice should help someone understand a decision. Use direct language, specific examples and a clear next step.

PROPOSED · WRITE THIS

“See your family’s finances in one place.”

Name the outcome. Explain unfamiliar terms. Say which information or assumptions an answer depends on.

“What happens if your expenses change?”

Invite exploration. Use questions for podcast hooks and explanations for the product.

“Finance from zero: emergency fund kya hota hai?”

Hinglish is appropriate for a series that already uses it. Choose a language for the full piece and keep captions consistent.

PROPOSED · AVOID THIS

“Unlock financial nirvana with AI.”

Replace broad promises with the action or feature the user can see.

“Retire at 40, guaranteed.”

Do not turn Ravi’s personal story into a universal outcome. Present projections as estimates with assumptions.

“India’s most trusted.”

The site uses this phrase. Treat it as existing promotional copy, not a verified fact or a standard to repeat without evidence.

Claim handling for design: the app artwork says “SEBI Registered Investment Advisory” and “0% Zero Commission.” This research did not independently verify registration or the scope of those claims. Use approved wording and entity details before placing them in new campaigns.

Tone informed by Ravi’s profile, Finance from zero and the podcast description. Examples are proposed copy, not Ravi quotations.

Source record and handoff.

Browser research completed 8 October 2026. This guide documents public-facing evidence and proposes a consistent design system.

SURFACE	VERIFIED OBSERVATION	SOURCE / SCOPE
Website	Blue logo assets; Inter declaration; measured palette; CFO, family wealth and FIRE planner messaging.	handauncle.com Rendered homepage and computed styles.
Android app	Hijli Labs listing; public screenshot artwork; illustrated uncle; Indian personal finance positioning.	Google Play listing Store material only. Authenticated app flows not tested.
Instagram	@handauncle education and event content; @ravihanda bio identifies him as a FIRE enthusiast and podcast host.	@handauncle · @ravihanda Profile grids and one sampled reel.
YouTube	Desi FIRE channel, founder-led interviews and FIRE content; red/yellow identity; blue marks on recent thumbnails.	@desifirepodcast Channel description and recent video grid.
Facebook	HandaUncle candidate links to the site but shows a default avatar and no posts. Ownership not verified. No clear Desi FIRE page found.	Candidate page · Podcast page search Excluded from visual design evidence.

Apply in this order

1. Confirm the official Facebook URL and master podcast artwork.
2. Share this guide's palette, type scale and logo assets with the team.
3. Build the three social templates and one episode thumbnail template.
4. Bring UI spacing, data labels and focus states into the same system.

All source imagery belongs to its respective owners and is included as reference material. Proposed layouts are reviewable concepts, not approved brand standards. Exact app fonts, podcast master colours and any separate podcast Instagram account remain unverified.
